

3C記憶IC 更換步驟

IC Memory Replace Steps

將上述板子全拆下,如圖 1

Remove the above board all, as shown in Figure 1

一、請將舊的 X-C07-3E5 上的『記憶 IC』拆下換在新的 X-C07-3E5 上。
(因為參數設定值皆在『記憶 IC』上)

Please take off the IC memory from X-C07-3E5 and place at X-C07-3E5.
(Because all the parameter settings are in this IC memory)

二、記憶 IC 更換步驟

IC memory replaces instruction

1.更換新底板時請將記憶 IC 拆下,更換舊的記憶 IC

Before replacing the mounting board, please take off the IC memory and replace the original one into the new card.

(圖 1) Figure 1

2. 更換時請記得記憶 IC 缺口朝上

While replacing, please notice to upward the concave of IC memory.

(註:若裝反或 IC 腳有未插對,會造成 IC 燒毀)

(Notice: please make sure it is place with correct direction and all the pins are well plugged in. Otherwise, the IC may be burnt.)
